

A Song For You

(Rusty Stone, 2021)

All I wanna do is to play a song for you
Never stop rollin' never stop rockin'
Never be sad and blue

All I wanna do is to play a song for you
Never stop rollin' never stop rockin'
Never be sad and blue

I take my guitar and my harp too
Everybody knows I like to play the Blues
Maybe I'm crazy maybe I'm insane
I'm a sixstring maniac with music in my veins

All I wanna do is to play a song for you
Never stop rollin' never stop rockin'
Never be sad and blue

I'm not a poet and don't win a Nobel price
Writing simple songs and don't think twice
So many years I let the good times roll
Don't need a doctor to cure my soul

All I wanna do is to play a song for you
Never stop rollin' never stop rockin'
Never be sad and blue

I've travelled many miles on this endless road
I still got a long long way to go
In this world of trouble I travel near and far
Healing people with music when they hear my guitar

All I wanna do is to play a song for you
Never stop rollin' never stop rockin'
Never be sad and blue

All I wanna do is to play a song for you
Never stop rollin' never stop rockin'
Never be sad and blue
