

# Don't Change Me

(Rusty Stone, 2024)

I know I'm not perfect  
But I believe it's okay  
I'm rough around the edges  
But you said you like my way

## *Chorus*

Don't change me  
And I won't change you  
Tell me how do you feel  
Don't let me be your fool

Sometimes I'm too hot  
Sometimes too cold  
Sometimes I feel much pain  
Sometimes I'm bold

## *Chorus*

Don't change me  
And I won't change you  
Tell me how do you feel  
Don't let me be your fool

I've got a heart full of stone  
And I hate the misery  
Then you came along  
And I'm not the same I used to be  
It always rains before the rainbow  
And the sun starts to shine  
Don't be sad about what I say  
You better show me your smile

*Chorus 2x*
