

Dirty Blues

(Rusty Stone, 2024)

A piece of paper an empty brain
Trying to write a song about a woman and man
But a brainwave hit my head
Here comes a song 'bout a mama big and fat

Chorus

Hey Baby: "Do you feel good?"
And she said:
"Play me your dirty Blues
I'll show you my big boobs"

What's better than a big fat mama
On her hands and knees
She knows how to make me hot
Begging please please please

Chorus

She's not looking for a friend
She's looking for a lover
While I'm singing on the bandstand
She gave me her phone number

Chorus

Rock me baby all night long
Your boobs in my face you can't do no wrong
To play a dirty Blues is a lotta fun
Just call me son of a gun

Chorus
