

Nothing To Regret

(Rusty Stone, 2023)

It started all in 1956 and I'm still around
Grew up in a poor family in a suburban town
My daddy had two jobs and sometimes three
And my ma worked very hard to give us everything we need

Chorus

Nothing to remember
Nothing to forget
Nothing is forever
Nothing to regret

In 1965 I heard the Beatles and Bob Dylan sang Blowin' In The Wind
While I'm getting older my hair grew longer and I began to smoke and to drink
Sometimes I was too drunk to fuck and always tried to getting high
They said cut your hair and get a job in a suit and a tie

Chorus

Nothing to remember
Nothing to forget
Nothing is forever
Nothing to regret

I loved the way I was livin' and the times we were young and free
I've got nothin' but affection for all those who've sailed with me
Thin girls fat girls short and tall I loved them all
Every weekend we had so much fun till the rooster calls

Chorus

Nothing to remember
Nothing to forget
Nothing is forever
Nothing to regret
