

# When I Was Young

(Rusty Stone, 2021)

When I was young I had a dream  
Yes I was impatient and I was mean  
And now I'm old and a dream comes true  
I'm still alive and play my Blues  
When I was young I had a dream  
But now I'm grown and things are not what they seem  
Getting old ain't no fun  
Is it alright when I'm dead and gone?

Sometimes I think about my life  
Always keep everybody satisfied  
All the time it was rough and tough  
Worked hard and find somebody to love

When I was young my daddy said  
When you're old you'll understand  
Life's a roller-coaster it goes up and down  
It only stops six feet in the ground  
When I was young my mama said  
You'll find real love don't be afraid  
Today I know it was a lie  
Didn't find a good woman I don't know why

Sometimes I think about my life  
Always keep everybody satisfied  
All the time it was rough and tough  
Worked hard and find somebody to love

When I was young I had a dream  
That nobody is judged by the color of his skin  
But today I changed my view  
If you don't believe it just watch the daily news  
When I was young I had a dream  
Sky is forever blue and grass is green  
But the color in my brain is grey  
And all my dreams are blown away

Sometimes I think about my life  
Always keep everybody satisfied  
All the time it was rough and tough  
Worked hard and find somebody to love
