

# **The Blues In Me**

(Rusty Stone, 2021)

Not born in Mississippi not raised in Tennessee  
Livin' in Europe in Southern Germany  
And try to survive in a big old town  
Can't you see can't you see the Blues in me  
Can't you see can't you see the Blues in me

Life's no more good like it used to be  
Lost the job and livin' on the streets  
Now too old and all friends are gone  
Can't you see can't you see the Blues in me  
Can't you see can't you see the Blues in me

Collecting empty bottles out of a garbage can  
This rich country lets starving a poor man  
There is no hope for a long lifespan  
Can't you see can't you see the Blues in me  
Can't you see can't you see the Blues in me

Life is hard when you got nothing but the Blues  
I've done my part I've paid my dues  
There's a much better life when I'm gone  
Can't you see can't you see the Blues in me  
Can't you see can't you see the Blues in me  
Can't you see can't you see the Blues in me  
Can't you see can't you see the Blues in me
