

Shake And Groove

(Rusty Stone, 2024)

Groove me baby, groove me right
I want to be with you all through the night
Love me baby hold me tight
I want to be your lover for the rest of my life

Chorus

Shake, shake, shake, shake, shake shake and groove
Shake, shake, shake, shake, shake shake and move

I can't wait to watchin' you
While you're dancin' to my tunes
Jump in my spaceship and I show you the stars
And let us travelling through music bars

Chorus

The music is loud and the lighting is low
The women are shaking and moving on the floor
The singer is yelling bout the woman who left
I'm in the back getting drunk with my friends

Chorus

Groove me baby, groove me right
I want to be with you all through the night
Love me baby hold me tight
I want to be your lover for the rest of my life

Chorus 2x
