

Ride On

(Rusty Stone, 2024)

Chorus

Ride on ride on enjoy this song
Ride on ride on enjoy this song
Ride on ride on enjoy this song
Ride on ride on enjoy this song

Don't wait and hesitate get up it's never too late
Dance around with a good sound
I had my first guitar and Hendrix on the wall
Then came my first slow blues and I thought I knew it all

I'm not one for looking back but when I do I have to smile
Remember all the years mile for mile
Music is a medicine for the rich and the poor
It heals everything and hard times come no more

Chorus

Ride on ride on enjoy this song
Ride on ride on enjoy this song
Ride on ride on enjoy this song
Ride on ride on enjoy this song

Music was my first love and it will be the last
I never had a woman understanding my task
I still want appreciation for everything I've done
But I love to be on the road to sing you this song

Chorus

Ride on ride on enjoy this song
Ride on ride on enjoy this song
Ride on ride on enjoy this song
Ride on ride on enjoy this song
