

# Shelter You

(Rusty Stone, 2021)

Please open up your door  
I need shelter from the storm  
I'll never be the same  
Walked together through the rain

And when the rain comes  
You can't find the sun  
I'll be the one  
I will shelter you you you  
I will shelter you

Thunder and lightning  
Don't worry about frightening  
Let me hold you 'til the sun comes up  
And make love until the night rain stops

And when the rain comes  
You can't find the sun  
I'll be the one  
I will shelter you you you  
I will shelter you

I don't need no sunny day  
I only like it when it rains  
See the lightning cross the sky  
We'd better stay inside

And when the rain comes  
You can't find the sun  
I'll be the one  
I will shelter you you you  
I will shelter you

The rhythm of the rain  
Drives away my pains  
Let's spend our time  
Together with a good red wine

And when the rain comes  
You can't find the sun  
I'll be the one  
I will shelter you you you  
I will shelter you
